EXPERIENCE

Greek Army IT Support Center (KEPYES), Front-End Developer
Nov 2019 - present

I am responsible for developing web applications using Angular and NgRx on the front end and Java on the back end.

UniSystems S.A, Software Engineer
Mar 2019 - Sep 2019

Worked on web applications for the company's public sector department using technologies like Java, MS SQL Server, and JavaScript.

Braincandy S.A, Front-End Developer
Oct 2018 - Feb 2019

- Static websites using HTML5, CSS3 and JavaScript
- Wordpress site and theming
- An eshop widget built in React

UniSystems S.A, Software Engineer Intern
Jul 2018 - Sep 2018

Worked on a Java web application and helped on the database migration from Oracle RDBMS to Microsoft SQL Server 2016.

PERSONAL PROJECTS

Moviends

Moviends is a web app built in MERN Stack that helps users decide what movie to watch.

Army Life

Army Life is a web app built in MERN Stack that helps Greek soldiers keep track of their mandatory military service. Inspired by the well-known app 'Lelemetro'.

My Personal Website

My personal website that I built using HTML5, CSS3 and some Vanilla JS. Hosted on Netlify.

Gentlemen Only

The website of a modern barber shop in the centre of Athens. Built using simple HTML5, CSS3 and Vanilla JS.
